SKILLS

- Languages:** Java, C++, JavaScript, C, PHP
- Frameworks:** HTML and CSS, Bootstrap, Tailwind, NodeJS, React
- Tools/Platforms:** MySQL, MongoDB, Vercel, Netlify, Git
- Soft Skills:** Adaptability, Team Collaboration, Communication

INTERNSHIP

- Uplyx Solutions - EdTech & Workforce Development Firm | [Link](#)**
July 2025 - September 2025
- Web Development Intern
 - Engineered a full-stack scheduling platform to solve high-latency manual booking issues, enabling real-time slot availability checks and automated conflict detection for 500+ concurrent users.
 - Architected a robust RESTful API using Node.js and Express with JWT authentication for secure sessions, while leveraging React Hooks for state management and MySQL normalization to ensure ACID compliance.
 - Optimized booking efficiency by 40% through automated email notifications and admin-led rescheduling features, resulting in zero scheduling conflicts and a 30% reduction in administrative overhead.

PROJECTS

- FleetFly - Fleet Management System | [Link](#)**
May 2025
- Developed a full-stack fleet management dashboard enabling real-time vehicle tracking, booking management, and operational analytics through an interactive interface.
 - Engineered a scalable backend using Node.js and Express.js, implementing secure REST APIs for CRUD operations and role-based access control.
 - Deployed and hosted the application on Vercel, ensuring high availability, production-grade build optimization, and smooth CI/CD integration.
- SecureExamWatch - Identity Verification Platform | [Link](#)**
April 2025
- Engineered a secure online examination ecosystem featuring Role-Based Access Control (RBAC) and multi-layered identity verification (Aadhaar & OTP), ensuring 100% exam integrity and preventing unauthorized access.
 - Architected a dynamic backend using PHP and Session Management to handle state persistence, implementing rigorous server-side Input Sanitization and MIME-type file validation to mitigate security vulnerabilities.
 - Streamlined the candidate onboarding process by digitizing the 4-step verification workflow, reducing administrative manual review time by 40% and providing real-time status tracking for users.

CERTIFICATES

- Language Principle & Finite Automata Theory | Infosys Springboard | [Link](#)
August 2025
- Java Developer Core to Advanced | *Board Infinity* | [Link](#)
July 2025
- Web Development Front-end | *1stop & IIT Bhubaneswar (Wissenaire)* | [Link](#)
March 2024
- React Basics | *Meta & Coursera* | [Link](#)
February 2024

EDUCATION

- Lovely Professional University**
Phagwara, Punjab
- Bachelor of Technology - Computer Science and Engineering; CGPA: 7.57*
Since August 2023
- Khadimul Islamic College**
Patna, Bihar
- Intermediate; Percentage: 73%*
April 2021 - March 2023
- St Paul's Academy**
Patna, Bihar
- Matriculation; Percentage: 67%*
April 2019 - March 2020
